RE: 5 Kw Solar Installation in Bloomington, IN

Dear Leon

On behalf of our clients at Middle Way House in Bloomington, IN and Mann Plumbing, I would like to commend you, your business and your solar team of Steve and Jim for the excellent installation of the 5 Kw UniSolar Laminate system on the roof of the new Middle Way House women's shelter.

Steve and Jim were prompt, courteous and efficient in spite of some nasty weather conditions and hurried timeline – they got the system up and running as scheduled and promised, and our clients are thrilled with the system and its performance.

I will happily recommend the Home and Mobile Energy team to anyone looking for knowledgeable, courteous employees and fast efficient service, and hope to work with the Home and Mobile Energy team in the future!

Thank you again and keep up the good work!

Best regards,

Amie McCarty
